

# HONDURAS

## San Marcos

### Washed | FTO

In the past couple of years Honduras has become one of the biggest coffee producer in Central America. Our San Marcos FTO is grown by the cooperative Asociación De Productores de Café San Marcos in the hilly region of Ocotepeque. The cooperative is an association of several small farmers who organise themselves together and thus create an ecological and economical advantage. Together they form a socially responsible company dedicated to the production of organic coffee.
