## Coko Farm

### Washed

The Coko Farm is located in the northern Gakenke District and was founded in 2008 by Jean Nepomuscene Habyarimana. As the son of a farmer, he recognized early on the importance of coffee cultivation for the local community, which ultimately inspired him to purchase his own land. Year after year, he continues to improve the quality of his coffee.

Additionally, Coko Farm was selected as a model farm for the Farmer Field School. For the past few years, it has also been home to many pigs, which contribute to increasing productivity at the farmer level while simultaneously producing organic fertilizer.
